

Wendy

Phillips

Secretary of State

Fellow Conservatives,

I'm Wendy Phillips. A wife, mother, grandmother, former small business owner, and the fighter Minnesota needs as your next Secretary of State.

Career politicians like Steve Simon have failed us miserably. While the Trump Administration steps in to audit our elections and expose fraud, Simon hides behind excuses, refusing to hand over voter rolls to the Department of Justice, even as federal lawsuits pile up accusing him of violating federal law. He's stonewalling transparency and protecting a broken system instead of cleaning it up. Decades-old loopholes? He's done nothing. Voter rolls bloated with ineligible names? He fights transparency at every turn.

Enough. Minnesota deserves bold leadership, not weak excuses from a career insider who's more interested in blocking scrutiny than securing our votes.

I'm not a politician. I built and ran a small business for 25 years, served as Olmsted County BPOU chair and on the Republican Party State Executive Committee. I know how to balance budgets, solve problems, and stand up to bureaucrats.

My plan is simple and tough:

- **Clean the voter rolls** once and for all
- **Require voter ID** to stop fraud cold
- **Shut down** the businesses ripping off taxpayers

I have the **grace** to unite us and the **guts** to fight the Steve Simons of the world.

In my only other campaign in deep-blue Rochester suburbs, I outperformed nearly every Republican on the ticket. I'll do it again in 2026, bigger and better.

The insiders are scared, and with good reason. We The People have found our voice.

I look forward to earning your vote and your trust.

Wendy Phillips

Candidate for Minnesota Secretary of State
